

GHY scholarship and bursary program

1) **Unfunded international competition** – scholarship program

\$5,000 total pool, awards circa \$1K

a) Typically this includes events, but not limited to, World Junior Championships

These are also competitions that have strict qualification criteria and require selection by Athletics Australia. We would expect 0-4 athletes to fall into the category of unfunded Australian representation at an international, or possibly national, championship each year across summer and winter competitions.

b) This includes events, but not limited to World Masters championships. While there is no qualification criteria per se to enter, eligibility for scholarship would be determined by a combination of factors, for example, performance at previous recent championship, national record holder, and their world ranking for the event.

2) **Unfunded national competition** – bursary program

\$5,000 total pool, awards circa \$200

This involves athletes who have qualified to compete at an Australian Championship Competition. Expecting 20-30 athletes in this category. this Criteria for Masters, Open and Juniors are as following:

- Juniors - Australian Nationals qualifying time and medal at Victorian championship in the same event (Victorian All-Schools or Victorian Junior Championships)
- Open - Australian Nationals qualifying time
- Masters – eg Australian nationals qualifying time, recent podium placing at national championships, and /or medal at Victorian championship in the same event.
